

Dear MS-IDPT Placement Team,

I would be happy to share my experience. It has been a positive experience, and I have found the students to be sincere, enthusiastic, creative, and eager to learn. Our experience with MS-IDPT students working in our office as trainees and professionals has also been very good, with students demonstrating adaptability, professionalism, and a strong willingness to contribute and grow.

Regards

A Meaningful Industry–Academia Connect

Our firm, Bankim Dave Architects, had the privilege of being part of the Placement Drive organised by MS-IDPT College imparting education in Architecture & Interior Design. The entire process was meticulously planned and executed with commendable professionalism and precision.

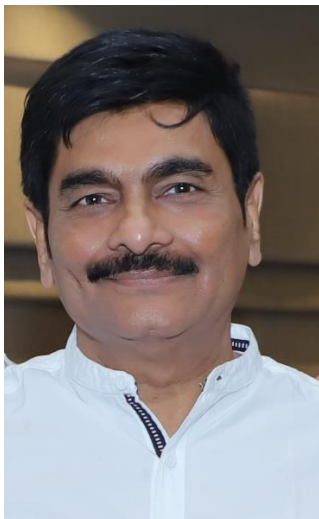

What particularly impressed us was the quality of the students who appeared for the interviews. They were well prepared, articulate and confident, with a sound understanding of their subject and an evident readiness to step into the professional world.

Our association with the College continued when an Interior Design student joined our firm as a trainee. The experience has been equally encouraging. The trainee has demonstrated punctuality, discipline and, most importantly, a genuine curiosity and eagerness to learn. From participating in site visits to accompanying us for material selections, the trainee has shown a willingness to understand the profession beyond the classroom.

In my experience, while technical knowledge can be imparted, zeal, integrity and the willingness to learn are qualities that define a promising professional. It is heartening to see these qualities reflected in the students of MS-IDPT.

I congratulate the College and its faculty for creating an environment that not only imparts design education but also prepares young designers to confidently engage with the realities and responsibilities of professional practice.

Ar. Bankim Dave

The IDPT 2026 Campus Placement Drive was well-organized, maintaining a highly professional and clearly narrated flow from the initial invitation to the final conclusion. Each candidate demonstrated excellent preparedness, presenting their portfolios and project work with a level of professionalism that was well-received by both our team and the institute's fraternity. This structured environment provided an excellent platform for students to showcase their talents, highlighting the coordination efforts of the institute. We look forward to engaging more frequently in the future to build an even stronger, mutually beneficial connection between academia and professional design practices.
